

## Quality and safety of the environment / 1st cycle studies (Bachelor)

### Faculty of Chemistry:

| No. | Course unit  | Semester      | Hrs | ECTS credits |
|-----|--|---------------|-----|--------------|
| 1   | <a href="#">General chemistry</a>                              | winter        | 75  | 7            |
| 2   | <a href="#">Foreign language course</a>                        | winter        | 30  | 2            |
| 3   | <a href="#">Physics of environmental hazards</a>               | winter        | 60  | 4            |
| 4   | <a href="#">Organic chemistry</a>                              | winter        | 75  | 7            |
| 5   | <a href="#">Nanotechnology</a>                                 | winter        | 30  | 3            |
| 6   | <a href="#">Electrochemistry of materials</a>                  | winter        | 30  | 3            |
| 7   | <a href="#">Analytical chemistry</a>                           | winter        | 75  | 7            |
| 8   | <a href="#">Instrumental methods in environmental analysis</a> | summer        | 60  | 4            |
| 9   | <a href="#">Nanomaterials in environmental protection</a>      | summer        | 30  | 2            |
| 10  | <a href="#">Chemical monitoring of the environment</a>         | winter/summer | 75  | 6            |
